A Little house inside the little house?

The beginning of a lovely story!

Good morning everyone, Hello! Good night

Friends and family come over to play

Let' s go outside today!

Our daily fun routine keeps going!

Children are the main players of this World.

What kind of magical story can they imagine?

The little wooden ladder transforms into mini modular furniture.

Simple design that fits both inside and outside.

It's up to you. The options are endless.

It is a wonderfully versatile little house made much bigger by the enriched imaginations of children.

Aloha pineapple

Try to concentrate on keeping the tower up and don't let it collapse while you tap each slice. It's so exciting, hitting the slices with the gavel.

"Aloha pineapple" is a fun toy for the whole family. A lucky symbol and a lively bright image of the pineapple is also a gift that gives you energy.

Kukkia celebrated its 10th anniversary this 2018 year and has been thinking about the next decade. Will it be filled with sweet and sour fun? We will not forget gratitude to our loyal customers and aim to continue to grow!

The Pineapple plant produces many flowers that become only one beautiful fruit. We like this concept and so the Pineapple grows with plenty of power from the sun and the earth, it is full of life-force. Perfect for friends and family as a gift to celebrate a special day.

Kukkia's new line "kukkia-deco"

Kukkia started working with kids interiors -to nurture children's sensibilities and highlight their likes. Making a Kukkia design room* begins with a play workshop that explores what children love and then utilises this info to create the space. By watching them play- a new aspect of a child's character could be discovered! After the workshop, we concentrate on parents' wishes for design and space.

We will then propose concepts and products according to your wishes such as lifestyle, budget, delivery date, etc. Based on the plan that fulfills your child's likes.

It's a lot of fun to enjoy time with your family by planning your room decor all together!

We also specialise in bespoke and Made to Order!

We will accept custom-made furniture and bespoke neon lighting orders. We can also import items not yet stocked in Japan on your behalf. You can see the product at our kukkia101 flagship store.

A word of thanks from our director:

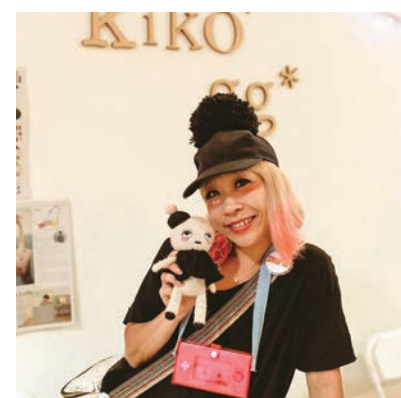

Thank you sooo very much to everyone who has supported me over the years. I am so lucky and honored to have you all in my life!

Kukkia has seen many wonderful people come and go through the years. With warm hellos and equally hopeful goodbyes- Kukkia wishes happiness and a fruitful future for everyone who has graced its doors... Wherever we are in the World, we will stay firm friends: Kukkia's mottoes are- gratitude: to have a thankful heart, humbleness and equality: to treat all as you would want to be treated yourself- don't forget to greet everyone with a BIG SMILE : D These basics should remain the foundations of Kukkia and the building blocks upon which we can grow further. We continue to grow like a big delicious pineapple- each individual leaf combining to create one beautiful fruit.

I really thank you all for supporting us,

Our heartfelt thanks,

Love team Kukkia.

kiko+developed a new toy with special little advisors!

Product planning of kiko + home deco also involves help from children. We have children play with samples. We ask them their opinions: "Should the door be this shape !?" "Is this a balcony?!" Many discoveries and ideas are gathered while watching children play. kiko + little home, was shaped and developed by people of all ages!

We found cute little house!
